DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's representative Patricia Murphy on 27 June 2005.

The application has been amended as follows:

In claim 13, please replace "The interface to claim 12" with --The interface of claim 1--.

In claim 33, line 3, please replace "a group of n objects" with --a group of n objects in the image space--.

In claim 40, line 4, please replace "a cluster of n objects" with --a cluster of n objects in the image space--.

Please cancel claims 49-52.

In claim 58, line 2, please replace "a cluster that can include n number of objects" with --a cluster that includes n number of objects visualized in image space--.

In claim 61, please replace "The method of claim 61" with --The method of claim 60--.

In claim 74, line 3, please replace "a cluster that can include n number of objects" with --a cluster that includes n number of objects visualized in image space--.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: as per the Office Action dated 13 January 2005, Applicant has amended the claims to include the indicated allowable subject matter of now cancelled claim 69.

The indicated allowable subject matter comprises at least one graphical object inheriting at least a portion of an annotation from an at least one cluster indicator. This feature is not disclosed in the cited prior art. At best, Kanevsky and the cited prior art teach a cluster indicator for representing a group of objects in an image space, and at least one graphical object being associated with the cluster indicator. However, Kanevsky and the cited prior art fail to explicitly teach the at least one graphical object inheriting at least a portion of an annotation from the cluster indicator. Thus, claims 1-11, 13-48, 53-68, and 70-74 are deemed allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Roswell whose telephone number is (571) 272-4055. The examiner can normally be reached on 8:30 - 6:00 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Cabeca can be reached on (571) 272-4048. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
